

# “Trees are worth it!”

Children recognize that trees are important elements of the landscape.  
We can listen to this wisdom that isn't beyond their years.

**Joe Henderson Tree Project Afoot**  
Please support our young students make our campus greener and healthier .  
The project involve students, parents, and community members in planting one of the largest stands of trees in the Benicia Unified School District.

Community Tree Planting Day  
**Saturday February 18, 2012**  
from 9am to Noon  
Joe Henderson Elementary School  
650 Hastings Drive, Benicia, CA 94510

Please **SIGN UP NOW** by emailing  
[wolfram@beniciatrees.org](mailto:wolfram@beniciatrees.org)  
and receive more information.

Children are among the most sensitive and susceptible to poor air quality.  
Solano County has one of the highest asthma rates in the state.  
Air quality management experts encourage protection of children by planting trees that remove pollutants from the air and decrease the negative impacts of detrimental air quality conditions.
